

PSI Instructional Video *FREE...with purchase of Carba-Tec, Jet Mini Lathe or Turncrafter Maxi Starter Sets!*

"Turning Pens and Other Small Projects"

This 35 minute video features: Operation and features of the mini lathe. Selecting, preparing, and mounting wood. Using mandrel and bushings for pen making. Turning, finishing, and assembling pen kits. Discussion of lathe chisels. Spindle turning and small bowl turning demos.

CML-TAPE When tape is Purchased Separately.....\$19.95

Accessory Set for Turncrafter & Pen Making Lathes

Add versatility to your lathe. This practical set includes a screw chuck and spur center. They easily mount into the headstock collet. Compatible with #TCL and #PMLA lathes.

TCLSET Accessory Set (Set includes screw chuck and spur center)\$15.95

Oneway Talon® Key Chuck for Mini Lathes

Fashioned after the Oneway Stronghold chuck, the new Talon™ key chuck is designed to be the ideal chuck for your mini lathe. Oneway's keyed gripping system is recognized as the most powerful gripping system available. Secure your round or square work from the inside or outside with Talon's 4 patented self centering jaws. System includes...

- 3-1/2" Chuck body weighing 3.4lbs • Operating key with cross bar
- 1-1/2" Jumbo woodworm screw chuck adaptor
- Patented profile #2 jaws that chuck internally from 2" to 3-3/8" and externally from 1-3/4" to 3"

ACCESSORIES

- A #1 Step Jaws** Ideal for gripping smaller pieces. Grips 3/8" to 1-3/4" externally, 7/8" to 2-3/8" internally.
- B #3 Jaws** Use these jaws for gripping larger pieces: from 2-7/8" to 4-5/8" externally and 3-3/8" to 4-7/8" internally.

ONETAL34	Chuck for 3/4" x 16tpi (for Carba-tec, Sears Lathes)	\$199.95
ONETAL18	Chuck for 1" x 8tpi (for Delta, Jet Lathes)	\$199.95
ONETAL58	Chuck for 5/8" no thread (for Shopsmith Lathe)	\$199.95
A ONET1	#1 Step Jaws Set	\$ 34.95
B ONET3	#3 Jaws Set	\$ 38.95

Heavy Duty Wood Chucks for all Lathes

3 Jaw Wood Chuck L3J

This self centering, heavy duty chuck is perfect to hold the round workpiece. Outside diameter adjusts from 5/16" to 4". Jaws reverse to lock onto inside diameter up to 6". Wt: 10 lbs. Specify thread size.

4 Jaw Wood Chuck L4J

This 6" chuck has four independent jaws for holding odd or square shaped work. Jaws can be reversed for inside chucking. Outside diameter adjusts from 7/8" to 6". Wt: 5.5 lbs. Specify thread size.

Threaded Bushings for PSI's 3 and 4 Jaw Chucks

3 or 4 Jaw Chucks are provided with insertable threaded bushings. Specify thread size of bushing from chart.

Style	Size
1	3/4" x 10 tpi
2	3/4" x 16 tpi (Sears)
3	7/8" x 14 tpi
4	1" x 8 tpi (Delta)
5	1" x 10 tpi
6	1" x 12 tpi
7	1-1/8" x 12 tpi
8	1-1/4" x 8 tpi
9	1-1/2" x 8 tpi RH
A	5/8" no thread (Shopsmith)
B	3/4" no thread
C	1-1/2" x 8 tpi LH

L3J	3 Jaw Wood Chuck (Specify thread size from chart)	(UPS \$5.95) \$85.00
L4J	4 Jaw Wood Chuck (Specify thread size from chart)	(UPS \$5.95) \$49.00
LBU	Bushing (To use your chuck on more than one lathe)	\$10.00

1-3/8" Expanding Collet Chuck

Mount pocket watch blanks or small bowls with this double duty chuck.

- As a Collet Chuck - Drill a 1-3/8" hole about 3/8" deep into your work (the diameter of most mini-clock fit-ups.) Insert the chuck and twist it - expanding the jaws up to 1/8" for a firm inside grip. Allows your work to be removed and remounted with no loss of concentricity.
- Converts to a Screw Chuck - Simply remove the collet jaws and screw in the supplied screw center.

For a limited time...
1-3/8" FORSTNER BIT (FB138)
FREE with purchase! A \$12 Value!

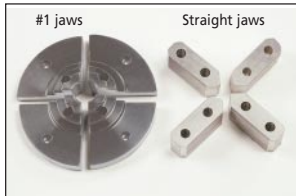

2-3/8" Replacement Jaws

For 1 3/8" Expanding Collet Chuck Ideal for making larger bowls and 2-3/4" clocks.
